Wenn's um Qualität geht, sind wir kompromisslos. Nicht nur unsere Geräte, sondern nahezu 90% deren Komponenten, werden im Hause Fischer angefertigt und im internen Prüfstand, auf Vibrationen, Geräusche und Resistenz getestet und kollaudiert. Nur so können wir das höchste Niveau an Qualität garantieren.

Non accettiamo compromessi, quando parliamo di qualità. Ed è proprio per questo che produciamo tutte le macchine ed il 90% dei loro componenti nello stabilimento della Fischer. Tutti i prodotti vengono sottoposti a vari test di resistenza, vibrazioni e rumori nel nostro centro di collaudo interno. Solo così possiamo garantire il massimo livello di qualità.

When it comes to quality, we are uncompromising. Not only our devices, but almost 90% of their components are manufactured at the Fischer establishment and tested and collaudated on the internal test bench for vibrations, noise and resistance. Only in this way we can guarantee the highest level of quality.
