Description:

At almost 1,000 metres above sea level, on the Ritten in South Tyrol, we produce pure natural mountain apple juices: single-varietal juices, cuvées made from mountain apple juice and suitable partners or with extracts with exciting flavours, and the exclusive juices of our Grand Cru line.

Everything the apples give us they take from nature: from the sun, water and the power of the earth. With great respect and a commitment to uncompromising quality, we accompany them in their development: from the bud and the flower to the ripe fruit. The juice is a concentrated expression of their essence and thus of the essence of South Tyrol. Our apple juices from the mountain – refreshing treats for in-between and the modern approach to food pairing. Apple juices such as you have never tasted before.
